APPROVED BID
SUPPLIER
2024/25

Bridging the digital divide by creating state-of-the-art street furniture that incorporates digital services and life-saving equipment to make people feel better connected and safer in their communities.

A purpose-driven company

- A British SME who has created the pulsehub which has revolutionised the humble telephone kiosk.
- We are passionate about engagement. Our approach is personable and sociable, echoing the voices of the communities we work with.
- We have transformed our business into a B-Corp to concretise our ethos of maximising social value.
- We have changed the legal structure of the business so that it exists to serve the needs of stakeholders alongside shareholders.
- Externally audited to ensure we meet and adhere to a high standard of social and environmental performance.

An established product

- We designed and developed a network of pulsehubs that were installed in Belfast six years ago.
- Having tested and developed our product we are now rolling out to other towns and cities across the UK.
- Our vision is to provide everyone, free of charge, the ability to connect to information, communicate, feel safe and have access to emergency lifesaving equipment.

What we offer

Our solution: the pulsehub

pulsehub.

Say hello to
the pulsehub

Whilst having a substantially smaller footprint than a traditional telephone kiosk design, the pulsehub provides a multitude of additional services in comparison. Each feature carefully considered and designed to serve a specific purpose for the local community.

Who benefits from the pulsehub?

pulsehub delivers a community-focused network of smart street furniture with life-saving equipment in towns and cities across the UK.

1

The individual

Delivering free phone calls, WiFi, phone charging and free access to real-time hyper local information, enabling people to feel connected and informed on the street and in the community.

2

Councils inc., town and city management

Free access to smart data including air quality monitoring, and free advertising space, enabling better management of our streets, greater support for local initiatives and a more informed community.

3

Police and other emergency services

Direct access to life-saving equipment and ability to override screen content if required to spread messages to the public in response to real-life scenarios.

4

Life-saving equipment

Increase the availability of defibrillators, bleed control kits and nasal naloxone on the street, along with emergency buttons to improve community resilience, public safety and security.

5

Tourism and local businesses

Public access to free live hyper-local mapping, local tourist attractions, what's on information, and free advertising for businesses providing a crucial role in promoting the local area to visitors.

6

Charities and outreach organisations

Free to use advertising and messaging space, direct access to hotlines to support the vulnerable and provision of life-saving equipment to better support the vulnerable in our society.

The user experience

Space and power for 4G and 5G small cells, future telecoms and IoT devices

Hyper-local information for what's on as well as council, visitor and charity information services and helplines

Digital wayfinding and mapping

Mobile device charging, including wireless charging

Integrated Nasal Naloxone opioid antagonist medication

Integrated bleed control kit

Public WiFi

Sensor technology including air quality and footfall monitoring

Free phone calls via the built-in speaker and microphone

Public messaging and advertising

Emergency Button for vulnerable persons police protocol

Integrated public access defibrillator

Timeline to installation

Our timeline runs from initial introductions with key stakeholders, through to the planning process, community engagement and installation.

Communication is at the heart of everything we do.

The relationships and partnerships we establish are for now and the future.

We'd love to hear from you
