

RCRP-LA/SCW Update

Sarah Paxton- Head of Adult Service
Jim Widdett- Social Care Wales

Progress

Partnership

- Evidence of continued engagement and partnership working

Approach

- Regional Implementation with partnership meetings as we roll through the phases. This approach seems to work well

Impact

- Need to consider demand displacement and impact on the whole system so partners are sighted on potential impacts and have time to plan

RCRP- Phases

Phase 1 and 2

- P1 – Concern for Welfare implemented across Wales system allows for escalation and learning from practice
- P2 – AWOL and Walk out from Health facilities
- Implemented
- Limited impact on LAs but potential for significant impact on LHBs and link to public concern for welfare

Phase 3

- P3 Transportation
- Transportation/Conveyance on going challenges with conveyance that impact daily on AMHPs
- There is an urgent need to put a sustainable solution in place that ensures people are conveyed in a timely manner that is dignified
- Need to ensure good LA engagement especially in relation to LAs responsibilities for providing Approved Mental Health Professionals (AMHPs). AMHPs and LAs have a significant role to coordinate conveyance for MHA Assessments which is sometimes not fully understood and appreciated

Phase 4

- P4 – S136
- Need to ensure good LA engagement especially in relation to LAs responsibilities for providing Approved Mental Health Professionals (AMHPs). AMHPs and LAs have a significant role which is sometimes not fully understood and appreciated

LAs are not an emergency service and are not resourced to operate like one so this does need to be considered when discussing roles, responsibilities and expectations.

Update from SCW

- Developed an all Wales AMHP Leads Network
 - Appointment of AMHP Community Manager
 - Development of online Community of Practice
 - AMHP workforce survey
 - Funded circa 20 candidates p.a. over last 3 years for AMHP training
 - Delivered national AMHP annual training
 - Funded regional AMHP meetings and 2 x national AMHP conferences
 - Raised profile of AMHPs with ministers and NHS senior NHS colleagues
- 

Safeguarding

- RCRP does not change organisations roles and responsibilities to safeguard children and adults at risk of abuse and neglect under the Wales safeguarding procedures

Questions
